

# Comprehensive Instrumentation & Technology Overview

---

Certified Laboratories provides compliant sterility testing using dedicated equipment in an ISO-certified Class 5 environment. Our ISO-classified cleanrooms, biological safety cabinets, membrane filtration systems, and validated incubation equipment ensure accurate, reliable results for both routine and high-volume regulated testing programs.

## Sterility Instrumentation & Technology Overview

- ✓ **ISO-Classified Cleanrooms:** *Controlled environments designed for aseptic sterility testing.*
- ✓ **Class II Biological Safety Cabinets:** (BSCs) *Aseptic sample handling and contamination control.*
- ✓ **USP <71> Sterility Tests:** *Testing for injectable, ophthalmic, and sterile products.*
- ✓ **Environmental Monitoring Equipment:** *Active air samplers, surface monitoring, and personnel monitoring.*
- ✓ **Sterile Media Preparation & Media Fill Systems:** *Validated media handling to ensure test integrity.*
