

Stability Testing Capabilities

Certified Laboratories' comprehensive stability testing services help you verify product safety and meet regulatory requirements so you can get your products to market on time. We follow ICH, FDA, USP, EP, and ISO regulations for a variety of products. With 90+ stability testing chambers available, we provide a full range of conditions based on ICH guidelines for long-term, intermediate, accelerated, and photostability testing. We deliver a trending report quickly following the pull date and provide access to technical experts throughout the process. Contact us today for a quote.

Products Tested

Cosmetics	Over-the-Counter	Personal Care Products	Dietary Supplements	Cannabis Edibles	Natural Health Products
-----------	------------------	------------------------	---------------------	------------------	-------------------------

Services Available

- Long-term, intermediate, and accelerated tests based on ICH guidelines
- Active Ingredient Assays by HPLC, GC, and other Analyses
- Antimicrobial Effectiveness/ PET Tests
- Microbial Limits
- Moisture/Solids
- BP, EP, JP, and USP Monographs Tests
- Color, Odor, & Appearance
- pH
- Specific Gravity
- Viscosity
- Package Compatibility
- Hardness
- Weight Loss/Gain
- Period-After-Opening
- Freeze/Thaw Analysis
- Ambient/Above Ambient
- Photostability
- UV

ICH Storage Conditions

- 25°C ± 2°C / 60%RH ± 5%RH
- 40°C ± 2°C / 75%RH ± 5%RH
- 30°C ± 2°C / 65%RH ± 5%RH
- 30°C ± 2°C / 75%RH ± 5%RH
- 45°C ± 2°C
- 50°C ± 2°C
- 60°C ± 2°C
- 5°C ± 2°C (Refrigerator)
- UV
- Photostability [per ICH Q1B guidelines, option 2 (1.2 million lux – hour/200 W/M²)]
- Freeze/thaw (-10°C to -20°C)
- Ambient /Above Ambient
