Approved by: Name: _____ Signature _____ Date: _____

Note: MQL recommends that all analytical samples be validated for OTC products to meet FDA requirements. Please note a validation will be performed with a customer request for a specific matrix. Hemp/CBD test samples must be accompanied with completed "Statement of Exemption from DEA CSA" form in order for samples to be processed. Reference: 21 CFR 1308 Exemption from Control of Certain Industrial Products and Materials Derived from the Cannabis Plant.

If the acceptable percentage range is not provided for the sample, an "Out of Specification" report cannot be issued.
