Sample Types RM - Raw Material (Attach CoA) FG - Finished Goods BLK - Bulk PB - Placebo ENV - Environmental AZN - Amazon STB - Stability	Terms are NET 30 days from invoices date on approved credit, otherwise COD. Turnaround time varies based on test. Please check with our customer experience team for an accurate TAT. Average TAT is 7-10 business days. Certified Laboratories - Carrollton requests notification of all suspected hazards known to be associated with samples delivered to our lab. Quality control will follow Certified Laboratories - Burbank quality manual. Different or more frequent QC may require additional charges. Nutritional samples are retained for minimum of 30 days from receipt. All samples are stored at ambient temperature unless indicated in special instructions. A specification range, with a pre-defined lower limit and upper limit, is required for a result to be considered out-of-specification (OOS). Providing a single, target value for the "Estimated Level/Spec" (above) will neither generate an OOS result nor trigger the investigation process. Specifying "RRO", with or without a specification range, will not trigger an investigation, even for an OOS result.	Chemistry and
